## INSPIRED BY MOTHER EARTH: THE AMAZON!

To achieve the optimal wellness that your body is truly capable of, you'll want to experience the **FuXion**®'s line of nutrition and drink mixes. This extraordinary line of functional beverages, antioxidant-rich coffees, and nutrient-packed teas is made from all-natural ingredients especially gathered from the Amazon, the largest rainforest on Earth.

The Amazon is home to almost 80,000 species of flora. These plants offer huge potential from the compounds they produce, where numerous of which can be used for nutritional and medicinal purpose. Most scientists and healers believe there is a multitude of medical, health and wellness breakthroughs still in the Amazon - waiting to be discovered. **FuXion**® is committed to protecting this vital resource, while bringing you the natural goodness it contains.

## THE FUXION® PROPOSITION

Our nutrition proposition is known as **NUTRACEUTICAL FUSION**. This philosophy seeks to recover the ancestral knowledge of ancient Amazonian, Andean, Mesoamerican, and Asian cultures on the use of foods as medicine, merging them with the latest advances in biotechnology and wellness, applied to human nutrition; to boost your health and your abilities through functional and healthy products with one-of-a-kind formulas.

We use over 1,500 active principles extracted from natural foods, and combine them in a perfect synergy, multiplying that multiplies their benefits in your body for maximum wellbeing: The X Effect!

**FuXion®** products truly are a fusion!

## WHAT ARE NUTRACEUTICAL FOODS?

Nutraceutical foods are functional foods with certain components or active ingredients extracted from natural sources that help to improve people's health. These elements are isolated by **FuXion®** from the rest of the food in order to concentrate and combine them into unique formulas.

Thanks to **FuXion®**'s proprietary technology, we turn these cold-press juices, infusions and extracts -rich in botanical actives- into dry powder form by using an atomizer with hurricane-force air pressure, and flash hot/low temperatures; in order to leave the nutraceutical functions intact. This way, we incorporate everything that is most beneficial, healthful, and safe for the human body in our products, and blending them to create synergy in each specific formula, offered to you in the form of delicious soft drinks, shakes, teas, and coffees.

Human beings have used functional foods since ancient times, but only **FuXion®** has succeeded in isolating them into their purest state and ingeniously combining them in order to achieve the X Effect (Multiplier Effect) in your body.

"Let food be thy medicine and medicine  
be thy food."
